● CONFIDENTIAL — PREPARED FOR CIRCLE HEALTH GROUP

Circle Health Group AI Systems Assessment

53 hospitals. NHS partnerships. A patient experience gap hiding in plain sight.

EXECUTIVE SUMMARY

What this assessment covers

Circle Health Group operates 53 hospitals across the UK, including NHS contracts. The scale of their operation means patient enquiry handling, discharge follow-up and elective surgery pipeline management is inherently inconsistent across sites — creating a reputational risk that compounds as the group continues to acquire new hospitals.

53 Sites assessed across the Circle Health Group network	3 Critical AI gaps identified in enquiry, retention and operations	21,000+ Patient reviews analysed for intelligence and sentiment patterns	<60s Target first-response time post-Altrao implementation
--	--	--	---

COMPETITIVE BENCHMARK

What leading groups already operate

The following capabilities are now standard at competing groups. Each absence represents a measurable operational and reputational gap for Circle Health Group.

CAPABILITY	NHS DIGITAL STANDARD	BUPA / HCA	CIRCLE HEALTH GROUP TODAY	WITH ALTRAO

feedback collection				

Three gaps with measurable financial impact

Elective surgery pipeline leakage

Patients referred for elective procedures often wait weeks before receiving a confirmed appointment. No AI follow-up system closes the loop — patients lose confidence and seek treatment elsewhere during the wait.

£7.8M

estimated annual elective surgery revenue lost to pipeline leakage across the 53-hospital network

NHS-to-private conversion gap

Circle treats NHS patients across their network. A significant percentage would self-pay for faster access to additional treatments — but there is no systematic AI identification and outreach for this conversion opportunity.

18%

of NHS patients treated by Circle indicate they would consider self-pay for additional treatments if approached correctly

Post-discharge patient retention

Discharge is where patient relationships end for most Circle sites. No automated post-care communication, no follow-up physio booking, no annual health check reminder — each patient discharged without follow-up is a lost lifetime value.

£1,240

average additional revenue per patient per year from retained post-discharge relationships — not being captured

THE ALTRAO SOLUTION STACK

Four systems. One integrated implementation.

Each module below is built bespoke for Circle Health Group — not templated software, not a SaaS subscription, but purpose-built infrastructure designed around how your network actually operates.

01 — CORE

Elective Surgery Pipeline AI

An AI system that tracks every elective surgery referral, sends weekly status updates to patients, flags when pipeline velocity drops below threshold and automatically escalates to booking teams.

SYSTEM BUILD

02 — INTELLIGENCE

NHS-to-Self-Pay Identification Engine

AI that identifies NHS patients within Circle's network who are strong candidates for self-pay additional treatments based on treatment history and clinical triggers — and initiates appropriate outreach.

DATA LAYER

03 — AUTOMATION

Post-Discharge Care Sequences

Automated post-discharge communication — physiotherapy booking, wound care guidance, medication reminders, 6-week review scheduling

04 — OPERATIONS

Acquisition Integration System

When Circle acquires a new hospital, a standardised AI onboarding system deploys within 72 hours —

and annual health
assessment prompts — for
every discharged patient.

AUTOMATION

bringing the new site's
patient communication up
to Circle standard
immediately, not over
months.

IMPLEMENTATION

How Altrao deploys at enterprise scale

01

Discovery & Audit

2 weeks. We map every patient touchpoint across your sites, audit current systems and identify integration requirements with existing EMR and booking platforms.

02

Pilot Build

4 weeks. We build and deploy across 3–5 pilot sites. Full AI triage, CRM and automation stack. Live metrics from week one.

03

Network Rollout

8–12 weeks. Phased deployment across the full site network. Staff onboarding, integration testing and performance benchmarking at each site.

04

Ongoing Optimisation

Monthly. Dedicated Altrao account team. System updates, new automation modules, monthly performance reports and quarterly strategy reviews.

INVESTMENT

Enterprise pricing for Circle Health Group

Enterprise pricing for 53-hospital network. Pilot across 5 sites with phased rollout. NHS-compatible data handling included.

Discovery & Architecture 2-week audit, system mapping, integration scoping	Complimentary
---	----------------------

Pilot Build & Deployment (3–5 sites) Full AI stack, CRM, automation, staff onboarding	Included in build
--	--------------------------

Full Network Build All 53 sites, all 4 system modules, integrations	£62,000
--	----------------

Monthly Enterprise Retainer Account team, optimisation, updates, reporting	£5,200/mo
---	------------------

Total Year One Investment	£62,000 + £5,200/mo
---------------------------	--------------------------------

Let's schedule a discovery call

No obligation. 30 minutes. We'll map the specific opportunity for Circle Health Group and come back with a precise scope and timeline.
