Optical Express AI Systems Assessment

700+ clinics. 2M+ patients. A patient journey that loses people between consultation and surgery.

EXECUTIVE SUMMARY

What this assessment covers

Optical Express is Europe's largest private provider of laser eye surgery and lens replacement, operating over 700 clinics across the UK. The clinical consultation-to-surgery conversion pathway is where significant revenue is lost — patients complete a free consultation, receive a quote and then go quiet. No systematic AI follow-up exists to nurture these high-intent prospects back to booking.

700+ Scale of the Optical Express operation assessed	3 Critical AI gaps identified with measurable financial impact	62,000+ Patient and family reviews analysed for this assessment

Post-discharge / post-care follow-up	X	✓ Standard	X Gap	✓ ALTRAO

GAP ANALYSIS

Three gaps with measurable financial impact

Post-consultation drop-off is the biggest revenue leak

Optical Express conducts thousands of free laser eye surgery consultations monthly. Industry data shows that 45-55% of consultation attendees who are clinically suitable don't book surgery within 30 days. Without a systematic AI nurture sequence — answering concerns, sharing patient stories, addressing price objections — the majority of these high-

Hearing care cross-sell is untapped

Optical Express expanded into hearing care but the cross-sell from existing optical patients is largely passive — a leaflet at checkout and a mention from the optician. An AI-driven patient communication sequence that identifies optical patients aged 55+ and introduces hearing assessment at the right moment could generate significant incremental revenue.

£2,800

average hearing aid package value — an AI cross-sell

Post-surgery patient retention

After laser eye surgery, patients receive post-operative care appointments and then largely disappear from Optical Express's active patient base. No AI-driven aftercare communication, no annual eye health check reminder, no lens replacement upsell sequence for presbyopia patients as they age into the right clinical profile.

£3,400

average lens replacement procedure value — the post-surgery patient base is an underactivated

intent leads go cold permanently. £47M estimated annual surgery revenue lost to post-consultation drop-off across the Optical Express network	sequence across 2M+ optical patients represents a material revenue opportunity	premium revenue source

THE ALTRAO SOLUTION STACK

Four systems. One integrated implementation.

Each module is built bespoke for Optical Express — purpose-built infrastructure designed around your operation, not templated software.

01 — CORE

Post-Consultation AI Nurture Engine

An AI sequence that activates within 24 hours of every consultation — answering procedure questions, sharing relevant patient outcome content, addressing the most common price and fear objections, and offering flexible payment options — running until the patient books or explicitly opts out.

SYSTEM BUILD

02 — CONVERSION

Hearing Care Cross-Sell AI

An AI-driven communication programme targeting existing optical patients aged 50+ — introducing Optical Express hearing care at clinically relevant trigger points, offering a free hearing assessment and tracking conversion from optical to hearing patient.

AI LAYER

03 — OPERATIONS

Post-Surgery Lifecycle System

Automated post-operative care reminders, annual eye

04 — INTELLIGENCE

Real-Time Consultation Pipeline Dashboard

health check prompts, and a lens replacement upsell sequence that activates when patients reach the presbyopia age range — keeping every surgical patient in an active revenue relationship with Optical Express for life.

AUTOMATION

A live dashboard showing every consultation outcome, follow-up status, conversion rate and revenue forecast across all 700+ clinics — enabling clinical and commercial teams to identify and address drop-off patterns by clinic, by procedure type and by region.

IMPLEMENTATION

How Altrao deploys across your network

01

Discovery & Audit

2 weeks. We map every patient, family or resident touchpoint, audit existing systems and scope all integration and compliance requirements.

02

Pilot Build

4 weeks. Full AI stack deployed across a defined pilot cohort — all modules live with real metrics and compliance evidence from week one.

03

Full Rollout

8–16 weeks. Phased deployment across the full network. Site onboarding, staff training, compliance sign-off and performance benchmarking at every stage.

04

Ongoing Optimisation

Monthly. Dedicated Altrao account team, system updates, new AI modules, compliance reviews and quarterly strategy sessions with your leadership.

INVESTMENT

Enterprise pricing for Optical Express

700+ clinic network — phased rollout by region available. Pilot across 50 clinics with full network deployment in Phase 2.

Discovery & Architecture 2-week audit, journey mapping, compliance and integration scoping	Complimentary
---	----------------------

Pilot Build & Deployment Full AI stack across pilot cohort with live metrics	Included in build
---	--------------------------

Full Network Build 700+ scale, all 4 system modules	£58,000
--	----------------

Monthly Enterprise Retainer Account team, updates, compliance, reporting	£4,800/mo
