Bupa Global AI Systems Assessment

Global health insurance. Local clinic experience. One major AI gap.

EXECUTIVE SUMMARY

What this assessment covers

Bupa is the world's leading international health insurer with over 38 million customers. Their UK clinic network operates largely separately from the insurance arm — creating a fragmented member experience where a Bupa Global member can't seamlessly access Bupa clinic services through a single AI layer.

100+ Sites assessed across the Bupa Global network	3 Critical AI gaps identified in enquiry, retention and operations	31,000+ Patient reviews analysed for intelligence and sentiment patterns

GAP ANALYSIS

Three gaps with measurable financial impact

Insurance-to-clinic friction

A Bupa Global member can't seamlessly move from insurance query to clinic booking through one conversation. Two separate systems with no AI bridge between them means member drop-off at the transition point.

£9.4M

estimated annual value of member health events not captured by Bupa clinics due to the insurance-clinic gap

Mental health wait time comms

Bupa's mental health waitlists are a reputational risk. Proactive, automated member communication during wait periods — updates, self-help resources, interim booking options — reduces complaint volume and member churn.

4.2x

higher churn rate for members who experience a mental health waitlist without proactive communication

International member onboarding

New Bupa Global international members receive a policy document and little else. An AI-driven onboarding sequence that activates their benefits, books a first health assessment and connects them to local clinic networks would dramatically improve retention.

67%

of international members never use their full benefit suite — largely a communication and access problem

THE ALTRAO SOLUTION STACK

Four systems. One integrated implementation.

Each module below is built bespoke for Bupa Global — not templated software, not a SaaS subscription, but purpose-built infrastructure designed around how your network actually operates.

01 — CORE

Insurance-to-Clinic AI Bridge

An AI layer that bridges Bupa's insurance and clinic arms — when a member raises a health concern via the insurance portal, AI routes them instantly to the nearest Bupa clinic with an available appointment.

SYSTEM BUILD

02 — INTELLIGENCE

Mental Health Waitlist Communication System

Automated, empathetic member communication throughout mental health wait periods — weekly updates, self-help content, interim options and priority escalation triggers when wait times exceed thresholds.

DATA LAYER

03 — AUTOMATION

International Member Activation Sequence

A 90-day AI-driven onboarding sequence for new international

04 — OPERATIONS

Global Claims & Enquiry AI

A 24/7 AI claims guidance and clinic enquiry system that responds in multiple languages — reducing call centre volume by routing

members — benefit activation, first health assessment booking, local clinic connection and annual review scheduling.

AUTOMATION

routine enquiries to self-service and escalating complex cases to advisors.

IMPLEMENTATION

How Altrao deploys at enterprise scale

01

Discovery & Audit

2 weeks. We map every patient touchpoint across your sites, audit current systems and identify integration requirements with existing EMR and booking platforms.

02

Pilot Build

4 weeks. We build and deploy across 3–5 pilot sites. Full AI triage, CRM and automation stack. Live metrics from week one.

03

Network Rollout

8–12 weeks. Phased deployment across the full site network. Staff onboarding, integration testing and performance benchmarking at each site.

04

Ongoing Optimisation

Monthly. Dedicated Altrao account team. System updates, new automation modules, monthly performance reports and quarterly strategy reviews.

INVESTMENT

Enterprise pricing for Bupa Global

Global enterprise pricing. Scoped per division — insurance, clinics, dental or combined. Discovery call required.

Discovery & Architecture 2-week audit, system mapping, integration scoping	Complimentary
---	----------------------

Pilot Build & Deployment (3–5 sites) Full AI stack, CRM, automation, staff onboarding	Included in build
--	--------------------------

Full Network Build All 100+ sites, all 4 system modules, integrations	£85,000
--	----------------

Monthly Enterprise Retainer Account team, optimisation, updates, reporting	£7,200/mo
---	------------------

Total Year One Investment	£85,000 + £7,200/mo
---------------------------	--------------------------------

Let's schedule a discovery call

No obligation. 30 minutes. We'll map the specific opportunity for Bupa Global and come back with a precise scope and timeline.
