EXECUTIVE SUMMARY

# What this assessment covers

Bupa Dental Care is the UK's largest dental group with over 600 practices and 4 million registered patients. Despite the scale, patient recall management, appointment reminder systems and cosmetic treatment enquiry handling are inconsistent across the network. Each practice essentially operates its own patient communication system — creating a fragmented experience that costs the group significant revenue annually.

## GAP ANALYSIS

# Three gaps with measurable financial impact

### Recall system is failing at scale

Bupa Dental Care's patient recall — the system that reminds patients to book their 6-month check-up — operates differently at each of its 600+ practices. No unified AI recall layer runs across the network. Industry data shows that 35-40% of dental patients lapse within 18 months when recall is not proactively managed.

**£28M**

estimated annual revenue lost across the network from lapsed patient

### Cosmetic treatment enquiry gap

Invisalign, implants and facial aesthetics enquiries arrive via web, social and phone during and after practice hours. These are high-value treatments (£3,000-£8,000 average) with no dedicated AI response layer — meaning evening and weekend enquiries sit unanswered until the next working day.

**£6,400**

average value of an Invisalign or implant course — each unanswered evening enquiry carries this weight

### New patient acquisition is passive

Bupa Dental Care relies on Google search, Bupa insurance referrals and word of mouth for new patient acquisition. No AI-powered new patient enquiry response, no automated conversion sequence and no proactive reactivation of patients who haven't visited in 24+ months.

**41%**

of lapsed Bupa Dental patients (24+ months no visit) who could be reactivated with a single proactive AI outreach

## THE ALTRAO SOLUTION STACK

# Four systems. One integrated implementation.

Each module is built bespoke for Bupa Dental Care — not templated software but purpose-built infrastructure designed around your patient or member base.

### 01 — CORE

#### Network-Wide AI Recall System

A unified AI recall engine across all 600+ Bupa Dental practices — proactively contacting every patient at their recall due date via SMS, WhatsApp and email, with personalised messaging per practice and automatic rebooking links.

SYSTEM BUILD

### 02 — ENGAGEMENT

#### Cosmetic Treatment Enquiry AI

24/7 AI that responds to Invisalign, implant and facial aesthetics enquiries across all channels — answering treatment questions, quoting indicative costs, booking consultations and following up with prospects who don't convert within 48 hours.

AI LAYER

### 03 — REACTIVATION

#### Lapsed Patient Reactivation Engine

An AI-driven reactivation sequence targeting every Bupa Dental patient who

### 04 — INTELLIGENCE

#### Central Patient Intelligence Dashboard

One dashboard showing recall compliance rates, cosmetic enquiry

hasn't visited in 18+ months — personalised by practice, by last treatment type and by patient preference — converting lapsed patients back into active ones at scale.

**AUTOMATION**

conversion, new patient acquisition and lapsed patient status across all 600+ Bupa Dental practices — updated daily. Practice managers and group leadership see the same data simultaneously.

## IMPLEMENTATION

# How Altrao deploys across your network

01

### Discovery & Audit

2 weeks. We map every patient or member touchpoint, audit current systems and scope integrations with your practice management software and data platforms.

02

### Pilot Build

4 weeks. Full AI stack deployed across a defined pilot cohort — recall, enquiry response, engagement and reactivation all live with real metrics from week one.

03

### Full Rollout

8–16 weeks. Phased deployment across the full network. Practice or regional onboarding, performance benchmarking and compliance sign-off at each stage.

04

### Ongoing Optimisation

Monthly. Dedicated Altrao account team, AI model updates, new automation modules and quarterly strategy reviews with group leadership.

INVESTMENT

# Enterprise pricing for Bupa Dental Care

600+ practice network — phased deployment by region available.  
Pilot across 50 practices with full network rollout in Phase 2.
