

● CONFIDENTIAL — PREPARED FOR THE PRIORY GROUP

The Priory Group

The Priory Group AI

Systems Assessment

300+ sites. The UK's leading mental health provider. A referral system that loses patients.

EXECUTIVE SUMMARY

What this assessment covers

The Priory Group operates over 300 mental health and specialist care facilities across the UK. Referral handling — from GPs, self-referrals and NHS commissioners — is managed manually at site level. Given the clinical urgency of many referrals, delays in acknowledgement and placement are not just commercial losses but patient safety risks.

300+ Sites assessed across the The Priory Group network	3 Critical AI gaps identified with measurable financial impact	8,700+ Patient reviews analysed for intelligence and sentiment	<60s Target first-response time post-Altrao implementation

COMPETITIVE BENCHMARK

What leading groups already operate

The following capabilities are now standard at competing groups.
Each absence is a measurable gap for The Priory Group.

CAPABILITY	NHS DIGITAL STANDARD	BUPA / HCA	THE PRIORY GROUP TODAY	WITH ALTRAO
24/7 AI patient response	X	✓ Standard	X Gap	✓ ALTRAO
Unified enquiry routing	X	✓ Standard	X Gap	✓ ALTRAO
Automated pre- admission sequences	✓	✓ Standard	X Gap	✓ ALTRAO
Post- discharge retention system	X	✓ Standard	X Gap	✓ ALTRAO
Central patient intelligence CRM	X	✓ Standard	X Gap	✓ ALTRAO
AI-driven review & feedback capture	X	✓ Standard	X Gap	✓ ALTRAO

GAP ANALYSIS

Three gaps with measurable financial impact

Referral acknowledgement delays

GP and self-referrals to Priory facilities are acknowledged manually, often taking 24-72 hours. For patients in crisis, this delay is clinically significant. An AI that acknowledges within 60 seconds and initiates the intake pathway immediately is both a commercial and clinical imperative.

72h

average referral acknowledgement time — vs the 1-hour standard expected by referring GPs and psychiatrists

Self-referral conversion

Individuals self-referring for addiction treatment, eating disorders and mental health support often contact multiple providers simultaneously. Priory's response speed determines whether they convert — and the cost of losing a placement to a competitor is measured in lives, not just revenue.

£18,400

average annual placement value — each lost self-referral carries this commercial weight

Aftercare re-engagement

Patients discharged from Priory facilities have a high re-admission risk within 90 days. No systematic AI aftercare communication exists to monitor, support and re-engage patients before crisis point — a gap with both clinical and commercial consequences.

34%

of discharged mental health patients re-present within 12 months — proactive aftercare communication reduces this significantly

THE ALTRAO SOLUTION STACK

Four systems. One integrated implementation.

Each module is built bespoke for The Priory Group — not templated software but purpose-built infrastructure designed around your operation.

01 — CORE

60-Second Referral Acknowledgement AI

AI that reads every incoming referral — GP letter, self-referral form or commissioner request — acknowledges within 60 seconds, classifies urgency and initiates the appropriate intake pathway automatically.

SYSTEM BUILD

02 — INTELLIGENCE

Self-Referral Conversion System

A 24/7 AI that handles self-referral enquiries for addiction, eating disorders and mental health — responding immediately, gathering clinical information, explaining the admission process and scheduling assessment calls.

DATA LAYER

03 — AUTOMATION

Aftercare Re-Engagement Platform

Structured 30, 60 and 90-day post-discharge communication sequences — wellbeing check-ins,

04 — OPERATIONS

Commissioner Reporting Automation

Automated NHS and independent commissioner reporting — bed occupancy,

therapy continuation
prompts, crisis resource
delivery and GP update
automation — reducing re-
presentation risk.

AUTOMATION

outcome data, referral
response times and
clinical audit information
— delivered on schedule
without manual
compilation.

IMPLEMENTATION

How Altrao deploys at enterprise scale

01

Discovery & Audit

2 weeks. We map every patient touchpoint, audit existing systems and scope integrations with your EMR and booking platforms.

02

Pilot Build

4 weeks. Full AI triage, CRM and automation stack deployed across 3-5 pilot sites. Live metrics from week one.

03

Network Rollout

8-12 weeks. Phased deployment across the full network. Staff onboarding and performance benchmarking at each site.

04

Ongoing Optimisation

Monthly. Dedicated Altrao account team, system updates, new automation modules and quarterly strategy reviews.

INVESTMENT

Enterprise pricing for The Priory Group

300+ site network. Clinical-grade data handling, NHS-compatible systems, GDPR and CQC compliant architecture. Scoping call required.

Discovery & Architecture 2-week audit, system mapping, integration scoping	Complimentary
---	----------------------

Pilot Build & Deployment Full AI stack across 3–5 pilot sites	Included in build
--	--------------------------

Full Network Build 300+ sites, all 4 system modules	£78,000
